# Built-In Accessories for Grilling Islands

All Solaire Built-in Accessories are styled to complement your Solaire grill. They are solidly constructed of commercial grade stainless steel, welded and polished for quality appearance and lasting performance.

2 and 3 Drawer Sets are available in 14" and 21" widths, and 15" and 23" depths. The photo to the right compares the narrow/shallow and the wide/deep sets, showing the volume differences.

Drawer units feature removeable fronts and stainless steel slides - no sense replacing the entire unit if a front gets dinged or a slide needs replacing.

**Note 1:** Min. 2" clearance required between edge of cutout and inside back wall of enclosure for regulator  
**Note 2:** Refrigerator installations require ventilation on both sides of enclosure.
